

Shelf life of schülke products (status: 23.05.2016)

The following table lists the shelf life of schülke products (business unit Hygiene International) from the time point at which they are produced as per the date above. This table is updated about once per year and is only meant to give a general overview; the valid expiry date is always the one that is printed on the product label.

Shelf life of schülke products when stored properly

Product	Shelf life from the production date (in months)
acryl® des (liquid)	60
acryl® des (wipes)	24
alcohol isopropylique (70%) IP sterile	36
